| <b>13.00</b> | <b>HOUSEKEEPING (Clause 13 and Annex B)</b>                                                                                               |        |                  |
| 13.01        | Is the overall standard of housekeeping adequate?                                                                                         | Yes    | -                |
| 13.02        | More specifically:                                                                                                                        | Yes    | -                |
| 13.02a       | Do combustible materials appear to be separated from ignition sources?                                                                    | Yes    | -                |
| 13.02b       | Is unnecessary accumulation or inappropriate storage of combustible materials or waste avoided?                                           | Yes    | -                |
| 13.03        | Observations                                                                                                                              | Yes    | -                |
| <b>14.00</b> | <b>HAZARDS INTRODUCED BY OUTSIDE CONTRACTORS AND BUILDING WORKS (Clause 13 and Annex B)</b>                                               |        |                  |
| 14.01        | Is there satisfactory control over works carried out in the building?                                                                     | Yes    | -                |
| 14.02        | More specifically:                                                                                                                        | Yes    | -                |
| 14.02a       | Where appropriate, are fire safety conditions imposed on outside contractors?                                                             | Yes    | -                |
| 14.02b       | Where appropriate, is a permit to work system used (e.g. for 'hot work')?                                                                 | Yes    | -                |
| 14.02c       | Are suitable precautions taken by in-house maintenance personnel who carry out works?                                                     | Yes    | -                |
| 14.03        | Observations                                                                                                                              | Yes    | -                |
| <b>15.00</b> | <b>DANGEROUS SUBSTANCES (Clause 13)</b>                                                                                                   |        |                  |
| 15.01        | Are the general fire precautions adequate to address the hazards associated with dangerous substances used or stored within the premises? | Yes    | -                |
| 15.02        | Observations                                                                                                                              | Yes    | -                |
| <b>16.00</b> | <b>OTHER SIGNIFICANT FIRE HAZARDS THAT WARRANT CONSIDERATION</b>                                                                          |        |                  |
| 16.01        | Hazards: List and detail any other significant hazards here if applicable?                                                                | Yes    | -                |
| 16.02        | Observations                                                                                                                              | Yes    | -                |
| <b>17.00</b> | <b>MEANS OF ESCAPE (Clause 15c and Annex C)</b>                                                                                           |        |                  |
| 17.01        | Is the design and maintenance of the means of escape considered adequate?                                                                 | Yes    | -                |
| 17.02        | More Specifically:                                                                                                                        | Yes    | -                |
| 17.02a       | Do staircase and exit capacities appear to be adequate for the number of occupants?                                                       | Yes    | -                |

| Index ID     | Detail                                                                                                                                                                                                     | Values | Control Measures |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|------------------|
| 17.02b       | Are there reasonable distances of travel:                                                                                                                                                                  | Yes    | -                |
| 17.02b1      | Where there is escape in a single direction?                                                                                                                                                               | Yes    | -                |
| 17.02b2      | Where there are alternative means of escape?                                                                                                                                                               | Yes    | -                |
| 17.02c       | Is there adequate provision of exits?                                                                                                                                                                      | Yes    | -                |
| 17.02d       | Do fire exits open in the direction of escape, where necessary?                                                                                                                                            | Yes    | -                |
| 17.02e       | Are there satisfactory arrangements for escape where revolving or sliding doors are used as exits?                                                                                                         | Yes    | -                |
| 17.02f       | Are the arrangements provided for securing exits satisfactory?                                                                                                                                             | Yes    | -                |
| 17.02g       | Is a suitable standard of protection designed for escape routes?                                                                                                                                           | Yes    | -                |
| 17.02h       | Are there reasonable arrangements for means of escape for disabled people?                                                                                                                                 | Yes    | -                |
| 17.03        | Are the escape routes available for use and suitably maintained?                                                                                                                                           | Yes    | -                |
| 17.04        | More Specifically:                                                                                                                                                                                         | Yes    | -                |
| 17.04a       | Are fire-resisting doors maintained in sound condition and self-closing, where necessary?                                                                                                                  | Yes    | -                |
| 17.04b       | Is the fire-resisting construction protecting escape routes in sound condition?                                                                                                                            | Yes    | -                |
| 17.04c       | Are all escape routes clear of obstructions?                                                                                                                                                               | Yes    | -                |
| 17.04d       | Are all fire exits easily and immediately openable?                                                                                                                                                        | Yes    | -                |
| 17.05        | Observations                                                                                                                                                                                               | Yes    | -                |
| <b>18.00</b> | <b>MEASURES TO LIMIT FIRE SPREAD AND DEVELOPMENT (Clause 15g)</b>                                                                                                                                          |        |                  |
| 18.01        | Is it considered that there is:                                                                                                                                                                            | Yes    | -                |
| 18.01a       | Compartmentation of a reasonable standard?                                                                                                                                                                 | Yes    | -                |
| 18.01b       | Reasonable limitation of linings that may promote fire spread?                                                                                                                                             | Yes    | -                |
| 18.02        | As far as can be reasonably ascertained, are fire dampers provided necessary to protect critical means of escape against passage of fire, smoke, and products of combustion in the early stages of a fire? | Yes    | -                |
| 18.03        | Observations                                                                                                                                                                                               | Yes    | -                |
